Campaign Rules:

Campaign Core

Ashes of Eden is a team campaign for *Trench Crusade* with the goal of grounding single matches in a more overarching Battle Map. Any Rule is not set in stone, and I am open to change pretty much anything.

✦ 1.1 Duration:

- ✦ The campaign consists of **8 weeks of Battles**.

✦ 1.2 Unchanged Rules:

- ✦ **Battle**
- ✦ **Warband**
- ✦ **Exploration**
- ✦ **Quartermaster**
- ✦ **Basic Campaign (non-Carcass Front)**

✦ 1.3 Core Rule Modifications:

- ✦ **Glory Threshold:** After each week your Glory cap increases by 3 you can field 20 additional max Ducats per unspent Glory Threshold.
- ✦ **Reinforcing:** gets you up to your Glory cap aswell
- ✦ **Scenarios:** slightly adjusted Scenarios with glorious Deeds that give Map related stuff
- ✦ **Map layer:** Explained below

A Week, Start to Finish

✦ Find your Opponent:

- ✦ You are matched with a specific Opponent in your Acceptable Time zone each week.
- ✦ The Information is displayed in Discord aswell as in the App

✦ Initiate the battle:

- ✦ In the App either Player goes into the Battle Tab
- ✦ You will find out there who the Attacker is, the Attacker get's to decide over which Territory the Battle is fought

✦ Fight the Battle:

- ✦ You will be told which Scenario will be played, aswell as what Buildings will affect the Battle
- ✦ Play the match using your Warbands
- ✦ Report the Results in the App, especially any rewards you got from Glorious Deeds

✦ Open your rewards:

- ✦ For each match you get at least 1 Building Reward aswell as potentially more through accomplished Glorious Deeds.

✦ Place your Buildings & Roads or Destroy the Enemies:

- ✦ You get 1 Opportunity between each Battle for placing as many of your Buildings and Roads as you want. The same goes for using Your Destruction
- ✦ This is once again automated via the app just place a Building or destroy something, a timer is started where for that time you can plan out how exactly you want to use your limited Resources
