

—Trench Pilgrims—

The Procession of the Mud-Born

The Procession of the Mud-Born are a sect of Trench Pilgrims who believe service in the Great War is what will grant them forgiveness, and therefore passage into heaven - much like all other Pilgrims. However, they take it upon themselves to seek out the worst battlefields possible, where the conditions are especially dismal and the fighting is most brutal. They cherish every moment in the trenches, as they see it as a gift from God to oppose blasphemers and heretics. They are reckless and embrace death with open arms, but unlike other Pilgrims, they discourage members of the Procession from seeking martyrdom. Instead, they strive to survive as long as possible, believing every second at war slowly reveals to them an as-of-yet unrevealed divine truth. The hallowed ground of the trenches is where God's light will shine upon those who fight, and those who survive will be rewarded with divine knowledge.

The Procession of the Mud-Born Rules

Warband Creation:

You have 700 ducats to recruit your initial force for the Campaign, or the amount of ducats/glory agreed on between yourself and your opponent. For Skirmish, the recommended values of 800 Ducats, 6 Glory is what is advised, however use the amount you and your opponent decide on mutually.

The following special rules apply to a Procession of the Mud-Born Warband

- ⊕ **A Fraction of the Truth:** The Procession believes they can glimpse more of the Divine Truth the longer they live. Their shared knowledge and experience helps them grow both in skill and knowledge. For each model in your warband that survived the previous battle going to the Promotions Step, you may add an additional D6 to your Promotion Dice Pool. For each model that was killed in the previous battle, subtract a D6 from your Promotion Dice Pool.
- ⊕ **In the Mud, we are Born:** The unique hierarchy within the Procession raises those who survive to greater heights. You have no cap on Elite models, but Elite models can have only 7 experience points and are permanently killed instead of receiving Battle Scars. Models in your Warband can be promoted to Mud-Born if they are promoted an additional time from Elite status. Mud-Born receive Battle Scars and can have the normal amount of experience. Your War Prophet starts at the Mud-Born status.

- ✦ **The Sin of the Martyr:** The Procession discourages their soldiers from seeking Martyrdom. Your Warband's Punt Gun and Anti-Tank Hammer have the Limit:1 stipulation, cannot equip Ecclesiastic Prisoners with Martyrdom Devices, and Trench Pilgrims cannot become Martyr Penitents. In addition, models with less than 2 Battle Scars cannot be Broken on the Wheel.
- ✦ **The Beggar:** At the beginning of each battle, select one non-elite, non-Mud-Born model to be the Beggar. The Beggar gains Negate Fear and +1 Ranged or Melee until the end of the battle (if they already have Negate Fear, this does not grant an additional instance). If the Beggar survives, they may roll an additional 1D6 during the Promotions Step. If they were not taken Out of Action, they add 2D6 instead.
- ✦ **Close Quarters Killers:** Bayonets cost 0☹. In addition, Shotguns and Blunderbuss cost half as many ☹ (**rounding up**). This warband cannot have Semi-Automatic Rifles or Sniper Rifles.
- ✦ **Refuge Within the Earth:** Models can choose to go Down at the beginning of their turn. If they do, they are treated as being in Cover, their melee attacks have -1 Dice, and their movement is halved.

The following Battlekit are only available to a Procession of the Mudborn Warband.

Ranged Weapons

Double-Barrel Shotgun	Shield Combo, Bayonet Lug, ELITE and MUD-BORN only, Limit: 2	25☹
Slam-Fire Shotgun	Bayonet Lug, ELITE and MUD-BORN only, Shield Combo, Limit: 2	25☹
Punt Gun	Limit 1	20☹

Melee Weapons

Serrated Bayonet	BAYONET LUG only	3☹
Anti-Tank Hammer	ELITE Only, Limit 1	30☹

Equipment

Flechette Rounds		
Slug Rounds		
Inferno Rounds		

Double-Barrel Shotgun| 25 🎲 | Limit: 2

Before trench warfare became the norm, the Double Barrel Shotgun was once considered a weapon too primitive and ineffective for war. However, the Procession appreciates this humble weapon for its ability to fill a room with buckshot. Utilizing 4-gauge rounds, the Double-Barrel can tear its targets apart in a single shot, and those who believe in overkill will let loose with both barrels.

Type	Range	Keywords
Two Handed	10"/Ranged	+1 DICE, SHOTGUN, BAYONET LUG, SHIELD COMBO, ELITE and MUD-BORN only

- ✚ **Both Barrels:** When a model attacks with this weapon, they may choose to fire Both Barrels. If they do, they may make a second attack with this weapon directly following the first and has **RELOAD** (**RELOAD** only takes effect after the second attack).

Slam-Fire Shotgun| 25 🎲 | Limit: 2

Fearful in the tight confines of trenches, Slam-Fire Shotguns can fire as quickly as the user can chamber rounds. While smaller 12-gauge rounds don't boast the tremendous power of other shotguns, the Slam-Fire Shotgun's ability to shred lightly armored targets makes it perfect for sweeping trenches full of poorly armed and armored frontline soldiers.

Type	Range	Keywords
Two Handed	12"/Melee	+1 DICE, ASSAULT, SHOTGUN, BAYONET LUG, SHIELD COMBO, ELITE and MUD-BORN only

- ✚ **Soft Targets:** This weapon has +1 Injury Dice when shooting at enemies without Armor.

Serrated Bayonet| 3 🗡️

A brutally effective innovation of the common bayonet, Serrated Bayonets are designed to cause as much pain and damage as possible when removed from flesh. The blade tears and muscle and flesh, causing excruciating, gushing wounds.

Type	Range	Keywords
Two Handed	Melee	Cumbersome, Shield Combo

✚ **Serrated:** After making an **Injury Roll** with this weapon, place 1 additional **Blood Marker** next to the target, regardless of the result.

Fletcherette Rounds| 3 🗡️

Fletcherette Rounds replace traditional buckshot when additional armor penetrating abilities are required. Made up of small metal darts, Fletcherette Rounds are capable of piercing light armor, turning a shotgun into a terrifying close-quarters armor hunter.

Type	Range	Keywords
Equipment	-	AMMUNITION (ARMOR-PIERCING)

✚ **Shotgun Shells:** Fletcherette Rounds can only be used with a Shotgun, Double-Barrel Shotgun, or Slam-Fire Shotgun. In a campaign, you cannot reallocate Fletcherette Rounds to another model.

Slug Rounds| 3 🗡️

Massive slugs have proven to be a way to extend a shotgun's effective lethal range while maintaining its power. Slugs allow the user to maintain accuracy over distance with shotguns without sacrificing their stopping power.

Type	Range	Keywords
Equipment	-	AMMUNITION

✚ **Shotgun Shells:** Slug Rounds can only be used with a Shotgun, Double-Barrel Shotgun, or Slam-Fire Shotgun. In a campaign, you cannot reallocate Slug Rounds to another model.

✚ **Slugs:** The weapon loaded with this Ammunition does not suffer from Long-Range penalties.

Inferno Rounds| 3

Perhaps the most feared of all munitions, Inferno Rounds set their victims alight by using magnesium pellets. If the target is not killed by the initial shot, they are set alight, often driving them to panic and bringing forth screams.

Type	Range	Keywords
Equipment	-	AMMUNITION (FIRE)

⚙ Shotgun Shells: Inferno Rounds can only be used with a Shotgun, Double-Barrel Shotgun, or Slam-Fire Shotgun. In a campaign, you cannot reallocate Inferno Rounds to another model.
